THIS IS UNEVALUATED INFORMATION

25X1

The freight loading zone of the Matzen-Prottes railroad station is
being enlarged. The SNV plans to have a total of 12 pipes and
pumps for the loading of the tank cars. In addition, a freight
car scale will be installed. At the present time there are only
five oil loading pipes: they service four trains per day with an
average daily load of 300 tons of crude oil.
